

# COUNSELOR'S CORNER

Michelle Pacheco-Roof

As your proud TLE counselor, I support students' academic success, emotional and social well being through individual and group counseling. I help promote good attendance and work with students and families of students that may need additional support with their learning through parent workshops and individual conferencing.

Through programs like "Storytime with Eddie the Eagle," "Do the Right Thing" program and "Values Matter," our school helps students build character, make positive choices and develop academic, social and emotional skills.

By collaborating with families, staff and community partners-including Miami Dade Police Department, we continue to help foster a safe, loving and kind school environment.

I am honored to serve this amazing TLE Family
